A review includes primarily applying analytical procedures to management's financial data and making inquiries of company management. A review is substantially less in scope than an audit, the objective of which is the expression of an opinion regarding the basic financial statements as a whole. Accordingly, we do not express such an opinion.

Our responsibility is to conduct the review engagement in accordance with Statements on Standards for Accounting and Review Services promulgated by the Accounting and Review Services Committee of the American Institute of Certified Public Accountants. Those standards require us to perform procedures to obtain limited assurance as a basis for reporting whether we are aware of any material modifications that should be made to the basic financial statements for them to be in accordance with the accounting principles generally accepted in the United States of America. We believe that the results of our procedures provide a reasonable basis for our conclusion.

We are required to be independent of Willamette River Water Coalition to meet our other ethical responsibilities, in accordance with the relevant ethical requirements related to our reviews.

We have applied certain limited procedures in the required supplementary information in accordance with Statements on Standards for Accounting and Review Services, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our review of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

NOTES TO BASIC FINANCIAL STATEMENTS

WILLAMETTE RIVER WATER COALITION

**NOTES TO BASIC FINANCIAL STATEMENTS
YEARS ENDED JUNE 30, 2022 AND 2021**

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Organization

Willamette River Water Coalition (the Coalition) was organized under Oregon Revised Statutes (ORS), Chapter 190 and was established by an agreement between the cities of Sherwood, Tigard, Tualatin, and Tualatin Valley Water District (the District). The Coalition is governed by a four-member board, with one member appointed by each jurisdiction. The purpose of the Coalition is to preserve access to the Willamette River as a municipal and industrial water source for each of the growing communities listed above. The Coalition is managed by the District.

Operation and maintenance expense is determined on a unit basis by the Coalition. Each joint venturer's apportioned share of the general administration expenses is determined by the following formula: one half of the administrative costs for the fiscal year is divided evenly among the Coalition's membership; the second half of the total administrative costs of the fiscal year is divided among the Coalition membership according to their percentage share of the total number of water meters served by the members of the Coalition as of December 31st of the preceding fiscal year. The following weighted percentages were in effect on June 30, 2022:

City of Sherwood	15.71	%
City of Tigard	23.29	
City of Tualatin	16.29	
Tualatin Valley Water District	44.71	

Basis of Presentation and Accounting

For financial reporting purposes, the Coalition reports its operations on an enterprise fund basis. Enterprise funds (a propriety fund type) are accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets, liabilities, and net position associated with the operations are included on Statements of Net Position. The Statements of Revenues, Expenses and Changes in Net Position present increases (revenues) and decreases (expenses) in net position.

The accrual basis of accounting is used for financial reporting. Under the accrual basis of accounting, revenues are recorded when earned and expenses are recorded at the time liabilities are incurred.

Beaverton, Oregon

**NOTES TO BASIC FINANCIAL STATEMENTS
YEARS ENDED JUNE 30, 2022 AND 2021**

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Basis of Presentation and Accounting (Continued)

The Coalition has defined operating revenues to include all reimbursements and payments received from joint venturers. Operating expenses are defined as those expenses directly related to providing services. Non-operating revenues are revenues of the Coalition not directly attributable to services provided, consisting primarily of interest income.

Use of Estimates

The preparation of basic financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of certain assets, liabilities, revenues, expenses, and other disclosures. Accordingly, actual results may differ from those estimates.

Cash and Investments

Cash and investments of the Coalition are part of a common cash and investment pool maintained for all funds managed by the District. The Coalition considers these items to be demand deposit accounts, where funds may be deposited or withdrawn without prior notice or penalty. Interest earnings are allocated from the District based on the proportion of the Coalition's funds to the total of the District's funds.

Accounts Receivable

Accounts receivable are recorded as earned and no allowance for doubtful accounts is required as all receivables are due from the joint venturers.

Net Position

In the statement of net position, equity is referred to as net position and is unrestricted.

Budgets

The Coalition is an organization formed under ORS, Chapter 190 Intergovernmental Agreement (IGA). The Coalition's IGA requires the Board to adopt an annual work plan and budget. The Coalition is accounted for as a fund within the structure of the District, where the budget is prepared and legally adopted for the Coalition as part of the total budget for the District. The budget is prepared on a biennial basis as a separate fund on the modified accrual basis of accounting and complies with Oregon Local Budget Law. The District's resolution authorizing appropriations for each fund sets the level by which expenditures cannot legally exceed appropriations. The level of budgetary control is established at the object classification level (personnel services, materials and services, capital outlay, operating transfers and, contingency).
